

Teradata Accreditation Program

We are excited to announce that the first offering for the [Teradata Accreditation Program](#) will be for Data Engineers – or those interested in this job role. There will be training offered at the foundational, professional and expert levels.

Those who have the Teradata Vantage Data Engineer TDVAN4, Teradata Vantage Advanced Developer (TDBL5-16.20) or the Teradata Vantage Developer (TDBL4-16.20) certifications will have the ability to go directly to the Expert (or Professional) accreditation levels.

Further details are at [Teradata Accreditation FAQs](#).

Please stay tuned! The start date for the training and exams will be announced in one of our upcoming newsletters.

Teradata Virtual User Group Sessions: Q1 2025

[Virtual User Groups \(VUGs\)](#) offer interactive 60-minute sessions with 35-40 minutes of content followed by a Q&A, with recordings available afterwards. VUGs provide engaging content for diverse roles, including newcomers to Teradata. Open to all Teradata customers.

Join us to enhance your skills and connect with the community!

Teradata Vantage SQL for Business Users Intermediate Web-Based Training and Assessment

We are pleased to announce that [Teradata Vantage SQL for Business Users Intermediate with hands-on labs \(WBT Level: Professional\)](#) and [Teradata Vantage SQL for Business Users Intermediate \(Assessment\)](#) are now available on [Teradata University](#).

Teradata Vantage SQL for Business Users Intermediate training is designed for the Business User who has done the [Teradata Vantage SQL for Business Users](#) and wants to learn more.

The student will get lots of practical, hands-on experience with OLAP functions, Scalar subqueries, Temporary Tables and Views.

This class is a combination of most important topics from [Teradata Vantage SQL Intermediate](#), curated for Business Users.

Course Objectives:

- Use Window functions to define Window frames leveraging ROWS, ORDER, and work with LAG and LEAD, FIRST_VALUE and LAST_VALUE

- Contrast the differences between ROW_NUMBER and variations of RANK
- Differentiate between correlated and non-correlated scalar subqueries
- Understand the characteristics of non-permanent tables
- Create and work with VIEWS

Live Demo: Revealing the DNA of Data to Simplify Data Strategy Initiatives

The growing complexity of data platforms makes it challenging for organizations to speed up digital transformation, foster a data-driven culture, and maximize data investments while managing risks.

Join our live demo on Tuesday, February 25, 2025, to see how Teradata's Data DNA cross-platform data forensics service addresses these issues using a metadata-driven approach and automation at scale. You'll see:

- AI/ML automated mapping of business glossary terms
- Tracing of report columns' technical lineage
- Identification of PII and GDPR protected data
- Analytic dashboards for data usage insights

Presenters: Jon Brightling, Data Practice Principal Consultant
Kindy Flyvholm, Senior Manager, Consulting Project Management

Date: Tuesday, February 25, 2025

08:00 AM PT | 11:00 AM ET | 03:00 PM GMT | 04:00 PM BST (UK)
